

Procedure for responding to incidents of SARS-CoV-2 infection

1. The appropriate address to notify staff, students, postgraduate students, postdoctoral fellows and course participants, as well as residents of student residences, of the fact that they have become infected is InfoCovid19@adm.uw.edu.pl.
2. The information forwarded to the indicated e-mail address should contain the following details:
 - name and surname of infected person,
 - for students and doctoral students, the name of the teaching unit in which the course is taken,
 - date of designated isolation – sick leave.
3. The email address InfoCovid19@adm.uw.edu.pl, collection and communication of information regarding SARS-CoV-2 infections among members of the university community is handled by the Health, Safety and Fire Protection Inspectorate.
4. Upon receiving information about infection, the Health, Safety and Fire Protection Inspectorate shall forward this information to the relevant head of the organisational unit or the head of the teaching unit. The competent head of the unit may take measures to minimise the risk associated with the possibility of exposure to SARS-CoV-2 virus infection.
